Veggie Fest Exhibitor Guidelines

Thank you for your interest in exhibiting at Veggie Fest! We are excited to bring a variety of information and organizations to our event so that our attendees can learn what is out there. We have put some guidelines in place so that the event continues to fulfill its requirement of promoting an ethical and sustainable society:

1. Cost of exhibitor space does not include Veggie Fest food and beverages. Exhibitors would need to pay separately for these items at the rate outlined for members, nonmembers and children.
2. Exhibitors are responsible for bringing their own table, chairs, canopy (if desired), or other items needed. Exhibitors are also responsible for any permits needed if they are engaged in activities that might require that such as giving out food samples or selling items.
3. All exhibits and information must be suitable for children to view.
4. Any items brought by exhibitors to the event must be vegan whether distributed or brought for personal use.
5. Only vegan products may be promoted. For example, if you represent a company that offers both vegan and non-vegan items, only your vegan items may be listed on information at this event.
6. Any information disseminated must not conflict with vegan values nor should anti-vegan sentiments be conveyed. While some items are clearly a conflict, such as foods containing animal products, other issues may not be as clear. These conflicting items include the following:
 - Husbandry issues such as larger cages for domesticated animals
 - Promotion of any events that involve husbandry issues, domination tactics, or speakers associated with these movements
 - Any type of control of free-living animals such as the promotion of birth control.

We expect exhibitors not to promote ideas at this event that subvert or conflict with the above principles. If you are unsure about any items, please feel free to contact us. We want you to exhibit at our event and will do everything we can to make this work for both of us.
